SUMMARY

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning, with hands-on experience building machine learning pipelines, explainable AI models, and full-stack AI-powered applications. Co-inventor of an AI-based healthcare decision support system using XGBoost and SHAP for interpretable disease prediction. Proficient in Python, JavaScript, and end-to-end AI/ML model development, from data preprocessing to deployment.

SKILLS

Machine Learning & AI: Machine Learning, Artificial Intelligence, XGBoost, Scikit-learn, SHAP (Explainable AI), NLP, Multi-Label Classification, Model Explainability, Data Preprocessing, Pandas, NumPy

Languages: Python, C, C++, Java, JavaScript

Web & Backend: HTML, CSS, Node.js, REST APIs, JSON

Core Concepts: Data Structures & Algorithms, Operating Systems, OOPs, DBMS

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook

Additional: Graphic Design, UI/UX Designing

PROJECTS

EduGenie - Multimodal AI Assistant | *Next.js, FastAPI, Python, LangChain, RAG, ChromaDB, OpenAI/Gemini* 2025

- Developed a multimodal AI assistant supporting text, image, and PDF-based interactions.
- Implemented RAG-based semantic search for document understanding and PDF question answering.
- Integrated conversation memory, text summarization, image analysis, and real-time AI response streaming.
- Built a secure FastAPI backend with JWT authentication, input validation, rate limiting, and file validation.

MedBook - AI-Based Healthcare Decision Support System | *Python, XGBoost, SHAP, Scikit-learn, NLP* 2025

Co-Inventor | Multi-Stage AI Healthcare Pipeline

- Co-invented an AI-based healthcare decision support pipeline for symptom extraction, disease prediction, priority classification, cost estimation, and hospital recommendation.
- Developed a multi-label XGBoost classification pipeline to predict multiple co-occurring conditions.
- Implemented SHAP-based explainability to provide per-condition feature importance and interpretable predictions.

Smart Krishi AI - AI-Powered Agriculture Platform | *React, Node.js, TensorFlow, Keras, Python, MongoDB* 2026

Smart India Hackathon 2025 Project

- Developed an AI-powered platform for crop disease detection with confidence scores and severity classification.
- Implemented EfficientNetB0 transfer learning using TensorFlow/Keras for image-based crop disease detection.
- Integrated weather-based disease prevention alerts and APMC procurement features for wait-time tracking and digital slot booking.
- Added offline disease detection using TensorFlow Lite and multilingual voice interaction in Marathi, Hindi, and English.

Dynamic Memory Allocation Visualizer | *HTML, CSS, JavaScript* 2024

- Developed an interactive visualization tool for demonstrating dynamic memory allocation concepts.
- Designed an intuitive interface to simplify understanding of memory-management concepts.

CERTIFICATES

- Programming Using C++ — Infosys Springboard (Aug 2025) — [Verify](#)
- Computer Programming (72 Hours) — Lovely Professional University, iamneo (2025) — [Verify](#)
- Database Management System Part-1 — Infosys Springboard (Aug 2026) — [Verify](#)
- Deep Learning for Developers — Infosys Springboard (Sep 2026) — [Verify](#)
- Cyber Security Essentials (15+ hrs, proctored exam) — Tech Veda (Mar 2025) — [Verify](#)
- C# (Basic) — HackerRank (2025) — [Verify](#)

ACHIEVEMENTS

- Solved 200+ problems on LeetCode; ranked #1 in HackerRank's C domain (25/25 challenges, 620 points) with additional badges in C++ and Python.
- Participated in Hack-N-Win 3.0 Hackathon, organized by D4 Community with CGC University, Mohali (Mar 2026). — [Verify](#)
- Participated in the IIT Delhi zkFHE Hackathon (Airchains x BECon 2025) as part of Team Warriors, organized by IIT Delhi. — [Verify](#)

EDUCATION

Lovely Professional University

B.Tech, Computer Science Engineering

Punjab
2024 - 2028 | CGPA: 7.8

M.S.G College

Class XII, State Board

Malegaon, Maharashtra
2023 | Percentage: 84.00%

R.V. Shah High School

Class X, State Board

Malegaon, Maharashtra
2021 | Percentage: 83.80%
